## CABLE SUPPORTING SYSTEMS

Dear costumers,

You have just received our new catalogue with KOPOS KOLIN a.s. offer of metal cable support system products. Those types of products were firstly introduced on the market in year 2007. It is our pleasure, that our exertion was reward by a Czech quality certificate for cable trays range JUPITER and MARS. This reward means to us a lot more than just a piece of paper to be put in the frame on the wall or put into drawer. This reward obligates us to keep a high quality standard, improve the quality and bring to costumers sureness of top quality and uses of products.

KOPOS KOLIN a.s. is also significant producer of electric installation materials made of plastic, as are boxes, trunkings, perimeter trunkings, pipes, cable duct protectors and many others electric installations systems.

Costumers, who decide to choose KOPOS products have got guarantee to be never disappointed, because of our own designing, technical, construction office and qualified employees in production and business department.

I believe that you will be always pleased with products of company KOPOS KOLIN.
