| OKK - PROTECTIVE METAL CABLE COVER

Protected escape routes, schools, hospitals and modern offices require reliable and durable solutions. That is why we are introducing the OKK metal protective cable covers, designed for the most demanding applications and environments. Our covers provide maximum mechanical protection for cable routes against impact, deliberate damage and everyday wear and tear. In addition, they provide fire resistance for up to 30 minutes.

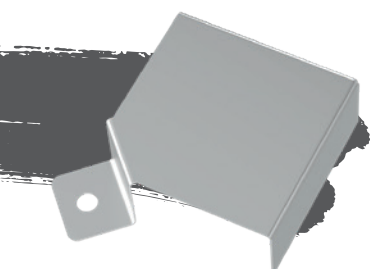

PROTECTIVE METAL CABLE COVER

	DIMENSIONS (H×W×L) mm	SURFACE FINISH
