

metal box with cover and protective terminal

7121 B

product description: designed for distribution system with voltage 500 V and with maximum current 16 A
boxes for piping with steel threaded or metal flexible pipes
three glands and one plug evenly distributed on the sides of the box
fitted with a clamp for installation in TNS networks
to install on materials with fire classes E or F, use thermally insulating pad
dimension: 120x120x76 mm

material: aluminum

temperature resistance: -25 - +70 °C

fire class for underlying material: A1-D

protection types: IP 54

weight: 865 g

mechanical protection according to EN 50102: IK10

certification: EN 60670-1

storage: EN 60721-3-1

configuration: P21 - glands for threaded pipes P21; 12 pcs boxes in cardboard
M25 - glands for threaded pipes M25; 12 pcs boxes in cardboard

accessories: terminal plate 6303-12
screwless terminal plates TYP015, TYP016, TYP017, TYP018
sealing cork P-21
