

name : KSP 5,5X19_PO
KSP-V16 5,5X19_PO

description and use: Screw designed to connect two metal parts with thickness 1,5 to 5,0 mm.

When connecting the 67XX_PO clamps with the metal sheet, using the above mentioned screw, a fire-resistant connection is created (fixing to trapezoidal ceiling).

For higher strength steel structures up to S450DG.

The item name V16 stands for bolt with sealing washer..

material: galvanised

storage: ČSN EN 60721-3-1

klasifikation: ČSN EN 1363-1 - klasifikation 90 minut
